Built boutique. *Every project, fully.*

WHO WE ARE

R2 Living is the residential development brand of R2 Capital, a Warsaw-based real estate investment company. We build modern flat-roof duplex homes in the quieter suburbs of Warsaw — two to four projects per year.

WHAT MAKES US DIFFERENT

We build one project at a time. Small enough that nothing slips, deliberate enough that nothing is rushed. Every buyer gets direct access to the investor, progress updates, and a floor plan they can still shape before the trades arrive.

WHO WE BUILD FOR

Families choosing a neighbourhood — not settling for one. People who want Kampinos forest and Vistula air without giving up a Warsaw commute. Buyers who value honesty: published specs, no fine print, no surprises at handover.

BRAND PILLARS

Boutique scale

One project at a time. Nothing slips.

Open by default

Progress updates, site visits, direct investor access.

Honest specs

Materials and floor plans published from day one.

Flat-roof modernism

Clean geometry, honest materials, no ornamentation.

Suburban calm

Good schools, quiet streets, 30 min to Warsaw centre.

Colourpalette.

SIX TONES, ONE COHERENT PALETTE — DRAWN FROM RAW CONCRETE, AGED TIMBER, AND FOREST UNDERGROWTH.

						
Ink	Ink 2	Moss	Bone	Stone	Rule	Paper
#14120F	#4A4540	#3D4A3A	#F3EFE8	#8C8880	#D8D2C8	#FAF8F5

COLOUR USAGE GUIDE

COLOUR	PRIMARY USE	SOCIAL MEDIA APPLICATION
Ink #14120F	Headlines, body text	Backgrounds for story covers, quote cards
Moss #3D4A3A	Accents, italic headings, CTAs	Accent borders, highlight frames, icon tints
Bone #F3EFE8	Light backgrounds, dark-BG text	Text on dark photo overlays, feed card backgrounds
Stone #8C8880	Captions, metadata	Small label text, location tags, data overlays
Paper #FAF8F5	Page canvas	Information card backgrounds, clean whitespace

HEADINGS & DISPLAY

Instrument Serif

Modern homes,
built properly.

AVAILABLE WEIGHTS

- Regular · 400
- Italic · 400i

USE FOR

- Section headings (h1, h2) on website and print
- Pull-quote typography on social media
- Property name and address display
- Large numbers and statistics
- Any italic accent text (always in Moss #3D4A3A)

AVOID

- Never use bold. Never use for body copy or captions.

BODY & INTERFACE

Geist

AVAILABLE WEIGHTS

- Light · 300
- Regular · 400
- Medium · 500
- SemiBold · 600

USE FOR

- All body copy on website and documents
- Social media caption text
- Navigation, buttons, and UI labels
- Bullet lists, specification text
- Callout values and key figures

AVOID

- Never use below 9px/pt. Avoid italic — use Instrument Serif instead.

LABELS & METADATA

Geist Mono

AVAILABLE WEIGHTS

- Regular · 400
- Medium · 500

USE FOR

- Eyebrows and section labels (always uppercase, tracked)
- Measurements, area figures, technical data
- Page numbers, captions on photography
- Navigation tags and hashtag-style labels
- Price and delivery callouts

AVOID

- Always uppercase with generous letter-spacing (0.14–0.2em). Never set in mixed case.

TYPE SCALE — WEBSITE & DOCUMENTS

h1	InstrumentSerif40pt Section hero heading. First word normal, key word italic in Moss.
h2	InstrumentSerif28pt Sub-section heading. Same italic rule as h1.
Eyebrow	GeistMono8pt UPPERCASE · TRACKED 0.18EM · Precedes every section heading.
Body	Heading leading Geist12pt Lead paragraph. Geist Light or Regular at 1.6 line height. 0.95 - 1.1 x font size
Body	Body copy leading Geist10pt Standard body copy. 1.5 - 1.6 leading. 1.5 - 1.6 x font size
Caption	GeistMono7.5pt UPPERCASE · TRACKED · For image captions, dates, categories.
Stat	InstrumentSerif24pt Large data display. Pair with small Geist Mono unit label.

LETTER SPACING & LINE HEIGHT RULES

Eyebrow / Geist Mono labels

0.14 - 0.22em tracking

Display headings (Instrument Serif)

-0.02 to -0.03em (tight)

Voice & tone.

R2 Living speaks like a knowledgeable friend who happens to build houses — not a salesperson, not a corporate brochure. Direct, calm, and genuinely confident without being boastful. We say what we mean, mean what we say, and don't pad.

Direct

We cut to what matters. No filler, no fluff. Short sentences. Active verbs. 'We build one project at a time' — not 'Our business model is characterised by a focused approach.'

Warm

We're human. We care about the neighbourhood — the schools nearby, the walk to the river, the kitchen light in the afternoon. We write about life, not just property.

Honest

We publish specs and materials from day one. Our copy matches our product. We don't overpromise or use superlatives we can't back up with a measurement.

Precise

We use the right number, the exact measurement, the correct material name. When something is 36.72 m² we say 36.72 m². Precision is a form of respect.

DO / DON'T — REAL COPY EXAMPLES

▫ Write this

Two homes on a peaceful Łomianki street.
136–142 m² per unit. Builder's finish.
Delivery Q2 2027. No slippage so far.
The kitchen faces south. Morning light.
We respond within 24 hours.

▫ Not this

Luxurious residences in a prestigious location.
Spacious, well-appointed homes with premium finishes.
Coming soon. Contact us for details.
Beautifully light-filled, south-facing kitchen.
Our dedicated team is always on hand to assist.

Photography

direction.

Photography is the strongest brand asset we have. Every image should feel like a place worth living in — not a product shot. Natural light always; no HDR, no artificial saturation, no heavy retouching. The mood is calm, considered, and slightly underexposed at dusk.

EXTERIOR	INTERIOR	AERIAL & CONTEXT
▪ Shoot at golden hour or dusk — the light gives warmth without drama ▪ Three-quarter view is the hero angle (shows depth and materiality) ▪ Include surrounding vegetation and sky — context matters ▪ Avoid midday flat light; avoid direct overhead sun ▪ Anthracite window frames and white render must read as clean, not harsh	▪ Natural light only — no flash, no artificial fill as primary ▪ Shoot rooms empty or with minimal, genuine furniture ▪ Show the quality of light as it falls across the floor ▪ Wide angles to convey space; avoid fish-eye distortion ▪ Focus on material texture: concrete stair, timber grain, tile surface	▪ Aerial shots show the plot and its relationship to forest and river ▪ Include neighbourhood context: streets, trees, proximity to nature ▪ Morning light preferred to show north Warsaw topography clearly ▪ Avoid heavy post-processing or saturated sky replacements ▪ Drone height: low enough to show street-level, high enough for plot shape
Tone Slightly underexposed. Dark shadows, bright windows. Never crushed blacks or blown highlights. Retouching Remove temporary site debris only. Never remove power lines, neighbours, or site context that is permanent.	Saturation Natural, not boosted. The building palette (white, anthracite, green) should read true to life. Format Deliver RAW + exported TIFF/JPG. Minimum 3200px on the long edge for print; 2400px for digital.	

Social media formats.

PLATFORM & FORMAT SPECIFICATIONS

PLATFORM	FORMAT	RESOLUTION	PRIMARY USE
Instagram Feed	1:1 Square	1080 × 1080 px	Primary brand platform. Exterior and interior photography, development updates, key stats.
	4:5 Portrait	1080 × 1350 px	Best for single-image posts. More feed real estate.
Instagram Story	9:16	1080 × 1920 px	Use for hero property shots. Construction updates, behind-the-scenes, site visits.
Instagram Reel	9:16	1080 × 1920 px	Text in safe zone (top/bottom 250px). Time-lapses, walk-throughs, neighbourhood context.
Facebook Post	1.91:1	1200 × 628 px	Max 30–60 s for organic reach. Linked posts and boosted content. Always include
LinkedIn	1:1 or 1.91:1	1200 × 1200 px	the development name and r2living.pl.
			Company updates, investor news, planning milestones. Tone more formal than Instagram.

Caption structure & hashtag guide.

INSTAGRAM CAPTION FORMULA

Hook — first line

The first line is the only line visible before 'more'. Make it earn the tap. One fact, one observation, one question.

Under 15 words. Example: 'Q4 framing is done. The staircase goes in next week.'

Body — 2–4 sentences

Expand on the hook. Add context, a measurement, a material detail. Write for someone who cares — not someone who needs to be persuaded. Example: 'Unit 1 staircase: monolithic reinforced concrete, 282 cm ceiling height on the first floor. The kind of detail you notice every day.'

CTA — soft close

Never hard-sell. Invite, not push. End with a link prompt or a soft call to action. Examples: 'Floor plans at [r2living.pl](#)' / 'DM us to book a site visit.' / 'More in our story today.'

Line breaks

Use blank lines between sections. Instagram does not render paragraph breaks without them. One idea per paragraph. Never a wall of text.

HASHTAG STRATEGY

Use 5–10 hashtags per post. Place them after the first comment or at the end of the caption after 3–4 line breaks. Never in the body copy.

BRAND TAGS (ALWAYS USE)

POSTING CADENCE

3–4× / week During active construction

1–2× / week Between construction milestones

1× / week Project in sales / completed

Content themes & *pre-publish checklist.*

CONTENT THEME PILLARS

Construction progress

Weekly or bi-weekly. Show the building going up — framing, screed, windows being fitted. Use real measurements. Caption: what stage, what's next.

Material & specification

Feature one material per post: the Porotherm block, the triple-glazed frames, the torch-on felt roof. Photograph the texture. Explain why it matters.

Neighbourhood & location

The Vistula in the morning. The Kampinos forest edge. A quiet Łomianki street. Show why someone would choose to live here, not just in the building.

Floor plan & configurator

Explain the layout — which rooms face which direction, why the kitchen is where it is. Show the configurator: 'Power outlets before the electrician arrives.'

Behind the scenes

Site visits. Investor conversations. The architect on site. Show the care behind the product without staging anything.

Community & delivery

Keys handed over. Family moving in. Garden in summer. Show that people actually live in R2 homes — and that they chose well.

PRE-PUBLISH CHECKLIST

Run every post through this checklist before publishing.

VISUAL

- ☐ Image is sharp, minimum 2400px on long edge
- ☐ No heavy filters — colours read true to the building
- ☐ R2 brand colours visible (ink background, moss accent, or none text)
- ☐ No watermarks or third-party branding visible
- ☐ Logo or r2living.pl present if required by format

COPY

- ☐ First line works standalone (visible before 'more')
- ☐ No superlatives without evidence (luxury, premium, best)
- ☐ Measurements use correct format: m², not sqm
- ☐ Polish diacritics correct (Łomianki, Wspólna, Kielpin)
- ☐ Hashtags placed at end or in first comment (not in body)
- ☐ CTA included and relevant to current phase

BRAND

- ☐ Tone is direct and honest — not salesy
- ☐ Instrument Serif used for any text overlay headings
- ☐ Geist Mono used for labels/eyebrows in uppercase
- ☐ Moss accent (#3D4A3A) used for italics/highlights only
- ☐ r2living.pl linked in bio is current
